

Covid-19 Vaccination Coverage Survey Module – SENS

Objective:

To assess covid-19 vaccination coverage among eligible PoCs in the in targeted age groups.

Target groups:

All individuals in the relevant age groups in the selected households for the survey are eligible for inclusion. During the survey, all members of a selected household are listed and any POCs aged 18 years or over could be interviewed. The target groups should be selected based on country specific policy on vaccines roll out and one or more groups could be included:

- Group 1: 18 – 39 years
- Group 2: 40 – 60 years
- Group 3: >= 60 years

Covid-19 questionnaire administration:

The following questions need to be asked to all individuals in the relevant age groups in the selected households taking into consideration country specific covid-19 national guidance and vaccination plan.

During the survey, all members of a selected household are listed and any household member aged 18 years or over should be interviewed. The head of household should respond on behalf of any absent household member.
